**LEGNO**

# ABOUT US

The idea became a reality thanks to people and technology.

Founded by Osman Yıldız in 1984, a modest carpentry workshop has transformed over time into a 20,000 square meter industrial facility. Throughout this journey, filled with both challenging and joyful memories, we have never ceased to climb the ladder of success with determination.

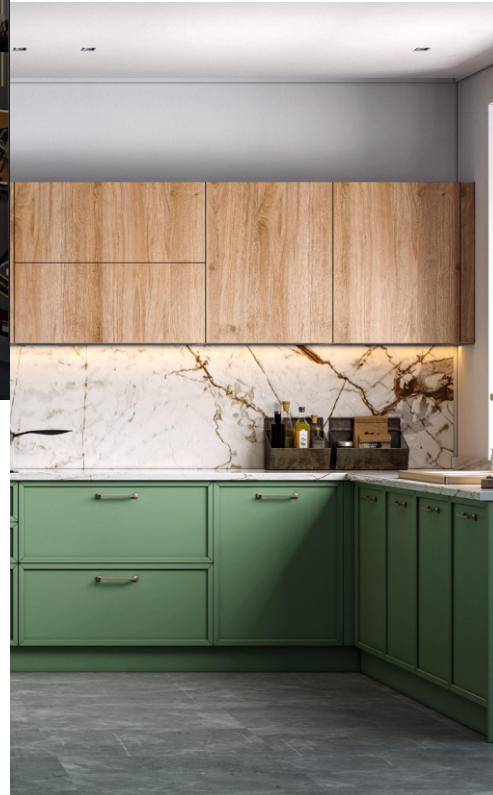

In 2009, we revitalized our company by entering the door market with the Legnodoor brand. Osman Yıldız's production facility in Gebze/Balcık, home to 80 specialized employees, operates with a focus on quality and continuous improvement. Our team, integrating fast production and efficient quality control systems, produces over 6,000 doors each month, meeting customer expectations to the highest standard. Serving 18 countries across a broad geography, from Europe to Asia, we continue to produce with the same passion we had from day one.

# OUR MISSION

At the heart of our business is a commitment to maintaining a customer-focused approach in everything we do. We prioritize understanding our clients' needs and aspirations, ensuring that every product we create meets the highest standards of quality and functionality. By seamlessly combining traditional craftsmanship with contemporary and innovative techniques, we bring out the natural beauty of wood while offering modern solutions for today's living spaces. Our mission is to continuously improve and adapt, delivering exceptional products that elevate the environments of our customers, all while preserving the timeless value of craftsmanship.

# OUR VISION

Starting from a carpentry workshop, we aim to elevate our journey to integrated wood production facilities, effectively utilizing innovative technologies in both production and management. Our mission is to make your homes and workplaces more livable with modern, stylish, and durable products, and we are always striving to go one step further toward this goal.

integrated to innovation

## CALISTO KITCHEN

The design of the Calisto series stands out by blending a contemporary, sleek look with durable metal accents. Its elegant lines and robust structure combine to offer both aesthetic appeal and functionality for those in search of modern design. This collection creates a unique atmosphere in both homes and workplaces with its sophisticated design that reflects refined tastes.

From Page 14-17

## ZENO KITCHEN

The Zeno collection is meticulously designed for those seeking a strong and modern expression. With integrated handle details and striking color options, it offers contemporary elegance while adding a dynamic and sophisticated touch to living spaces. Zeno seamlessly blends aesthetics and functionality, bringing a bold representation of modern style into your home.

From Page 18-21

## VALERIUS KITCHEN

The Lacquered Gap Door Model with a Standard Handle adds both aesthetic elegance and functionality to your kitchen. By combining the sophistication of contemporary style with ease of use, it brings a modern touch to your living spaces. This model perfectly balances aesthetics and practicality, transforming your kitchen into a space that is both stylish and functional.

From Page 22-25

## CAELUM KITCHEN

The Standard Handle PVC Colored Patterned Door from the Caelum series is crafted to bring a contemporary and functional atmosphere to your kitchen, blending modern aesthetics with practical design.

---

From Page 26-29

## JULIUS KITCHEN

The Julius series' PVC-colored patterned door with a standard handle blends beauty and practicality, turning your kitchen into a modern and functional space.

---

From Page 30-33

## DRAGOS KITCHEN

The Dragos series standard handle melamine and veneered solid color door model combines elegance and functionality to create a modern and refined atmosphere in your kitchen.

---

From Page 34-37

## NIALL KITCHEN

The Niall series J-handle special colored J door model blends refinement and utility, offering a cutting-edge design that transforms your kitchen.

---

From Page 38-41

## MORENO KITCHEN

The Moreno series Standard Handle Lacquered Slim Shaker Door Model adds a modern and elegant touch to your European-style kitchen, offering a perfect blend of sophistication and functionality.

---

From Page 42-45

## ANTONIO KITCHEN

The Antonio series Standard Handle Lacquered Shaker Door Model presents a modern and elegant option that enhances both style and functionality in your European-style kitchen.

---

From Page 46-49

## MAGGIE BATHROOM

The wide range of products, combining classic and modern designs, harmoniously blends aesthetics and functionality, offering flawless craftsmanship and practicality in every detail.

---

From Page 52-53

## GRACE BATHROOM

With rich wood patterns and unlimited color options, it allows you to create the spaces of your dreams, perfectly adapting to every taste and style.

---

From Page 54-55

## BESSIE BATHROOM

# Planning Options

---

Single Galley

Single Galley + Island

L - Galley

U - Galley

# CALISTO

*The aluminum design masterfully blends industrial and stylistic elements to create the **CALISTO** concept.*

*This concept merges practical spaces with various languages and materials, bringing the spirit of the “Old World” into modern times.*

*The kitchen has a rhythm defined by the modular structures of steel pipes, where forms, functionality, and an antique touch meet in a contemporary reinterpretation.*

# ZENO

The **ZENO** model seamlessly combines utility and enjoyment, privacy and familiarity, by incorporating independent elements that can be merged, separated, and reassembled according to available space and practical needs.

It creates a completely innovative kitchen with an endless array of possibilities.

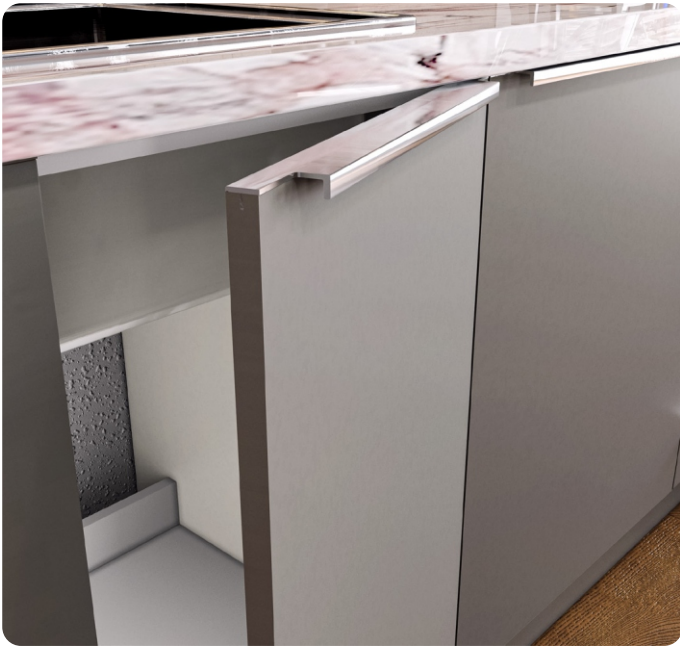

With its striking lines and graceful design, it delivers impressive results while introducing details that shape a fresh identity for modern living and working environments.

# VALERIUS

**VALERIUS** beautifully combines aesthetics and functionality, making it the perfect choice for those who appreciate design while also wishing to maintain a sense of familiarity.

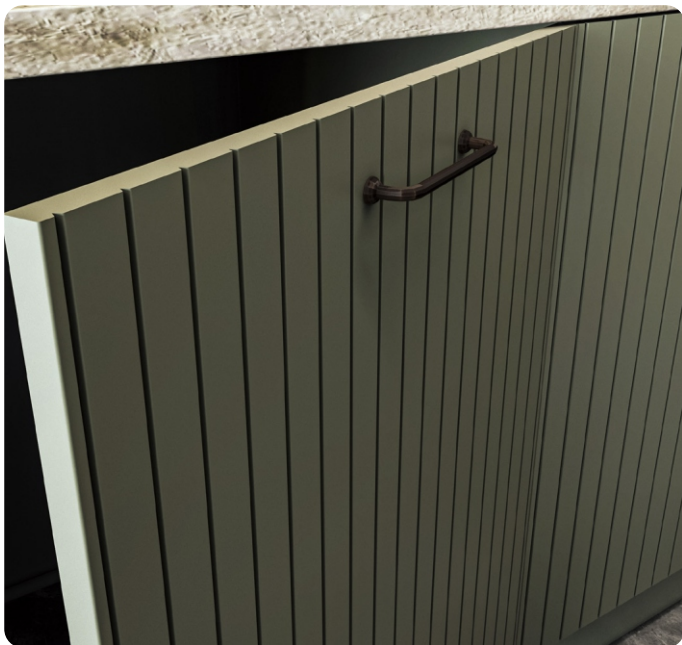

With its elegant lines, it adds a refined atmosphere to your living spaces, while its innovative design delivers high quality and sophisticated elegance in every detail.

# CAELUM

The **CAELUM** model from the Legno Kitchen series reflects a modern approach aimed at transforming your kitchen into a space where the best moments can be experienced in the perfect atmosphere.

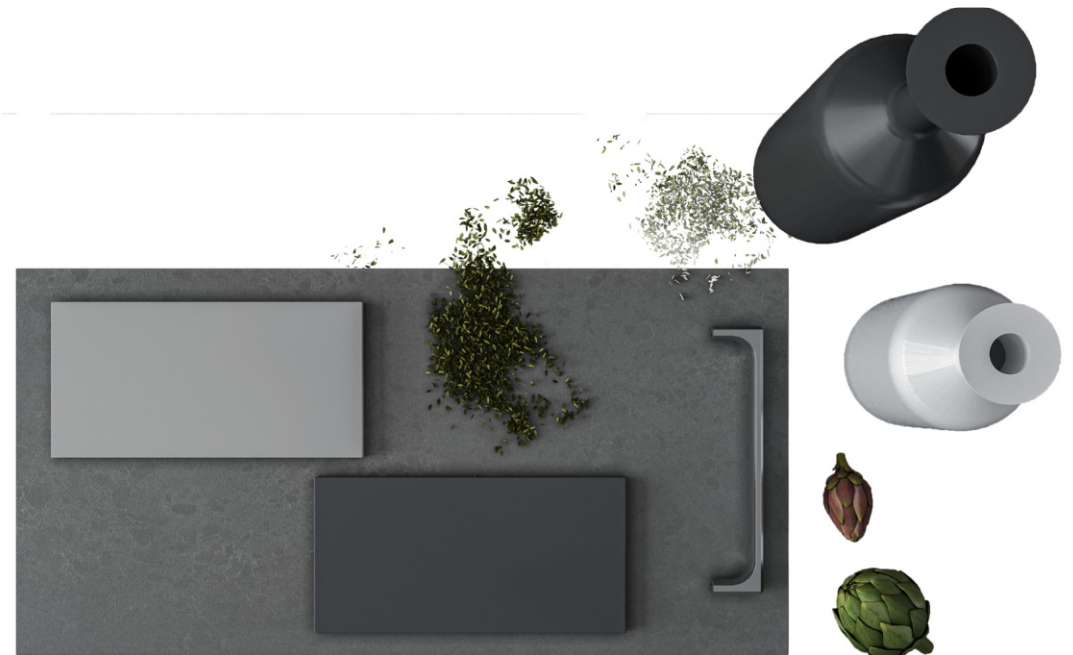

With its elegant design and superior functionality, it stands out by offering the ideal setting for creating unforgettable memories with your family and friends.

# JULIUS

Choosing the **JULIUS** model means both capturing attention and staying in tune with the latest trends.

With its sleek and contemporary design, it adds value to the heart of any home, while standing out with its practicality, high performance, and aesthetic appeal.

The **JULIUS** model enhances the quality of life in the kitchen with its design that caters to every lifestyle.

# DRAGOS

*The main concept behind this kitchen is to conceal the kitchen space using wooden shelves and storage units.*

*However, kitchens often present a complex appearance.*

*The goal of the **DRAGOS** kitchen is to create a unique design that sets it apart from others by providing additional space to create a visual impression.*

*The **DRAGOS** kitchen achieves an impressive result by defining the wooden shelves and storage units as a unified whole.*

# NIALL

**NIALL** creates a perfect harmony in the kitchen, offering a modern interpretation of familiar warmth.

With its high-quality design, open modules for various configurations, a wide range of finishes and color options, and designs that harmonize with the living room and other areas of the home.

**NIALL** stands out with its functional aesthetics and approach that emphasizes maximum compositional freedom.

# MORENO

**MORENO** is a model that reflects the strong bond between fashion and design, as well as the excellence of Western architecture.

With its unique design, it catches the eye, offering a high-quality cooking experience by combining contemporary lines with premium materials.

When combined with specific elements and craftsmanship, it creates true grandeur in both aesthetics and practicality.

# ANTONIO

*If you're in search of a kitchen that reflects elegance in every detail, the **ANTONIO** model by Legno Kitchen is made for you.*

*With its distinctive design and carefully selected materials, it brings something truly special to your space.*

*By focusing on every detail, this model creates a unique kitchen experience, enhanced by flawless design.*

## **IT ALL STARTED WITH A DREAM...**

The idea became a reality thanks  
to people and technology...

# BATHROOM

# MAGGIE

*Legno Bathroom, with its wide range of products spanning from tradition to modernity, brings elegance to your bathroom through flawless craftsmanship and refined designs.*

*The **MAGGIE** model, created by Legno designers, adds a unique aesthetic to your bathroom by combining innovative techniques and evolving technologies, perfectly blending sophistication and functionality.*

# GRACE

**GRACE** is an alluring, detailed, and sophisticated model.

*Framed doors serve as the most distinctive feature of this design.*

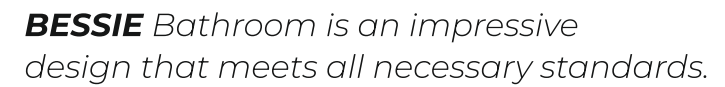

*By blending historical proportions with modern, sharp lines, it creates a unique aesthetic.*

*The elegance of **GRACE** goes beyond functionality, stemming from its focus on minimalist forms and refined details.*

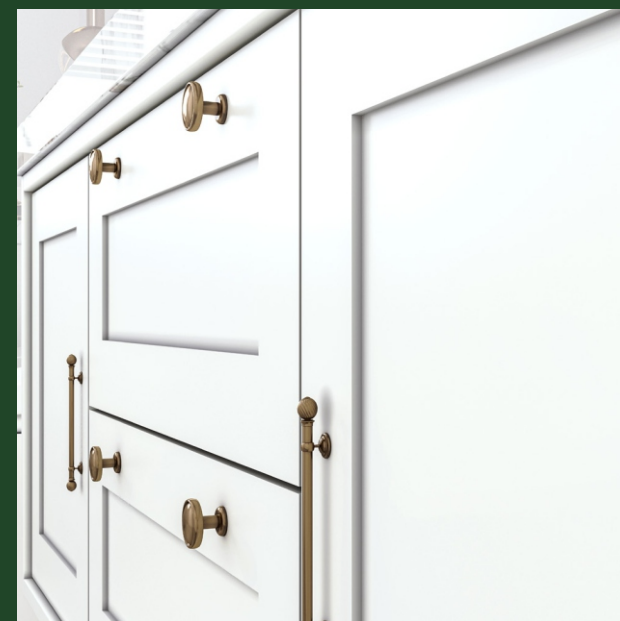

*It offers users elements that reflect the charm of rural homes through simple forms, while embracing international design principles and enriching them with unique details.*

## IT ALL STARTED WITH A DREAM...

The idea became a reality thanks  
to people and technology...

# WARDROBE

# ALONSA

*Whether it's a simple and rustic dressing room or a modern and striking city dressing room, "**ALONSA**" perfectly complements every style.*

*By using the same colors with different textured surfaces and accessories, it creates depth while adding elegance to the space, offering a refined atmosphere that caters to all needs and tastes.*

# ALYDA

*The core principle of this design is to create hidden spaces with wooden shelves and white storage units.*

*While dressing rooms are often cluttered, Alyda's design aims to go beyond the ordinary by offering additional space, creating a unique experience with a visual impression.*

*The word "**ALYDA**" means both ancient and wooden, and with this depth of meaning, it seamlessly integrates both the white storage units and wooden shelves into one cohesive concept.*

# BERDINA

*For those who prefer the simplest, most elegant, and reliable forms, Inova offers handle-less designs in a wide range of colors, from wood to black.*

*High-gloss surfaces with a chic, mirror-like effect add depth to your living spaces, while matte finishes offer a natural, airy feel.*

*Resistant to micro-scratches and fading, this design is exceptionally durable in both aesthetics and functionality.*

*Easy to clean, it maintains its original shine with every use, ensuring timeless elegance.*

*The modern glossy and matte patterns, spacious interior, and clean lines offer comfort while presenting a contemporary stance.*

# Things to Consider...

When placing your orders, please provide the cover dimensions, desired color, and model information to our customer representatives. For more detailed information, you can visit our website at <http://www.legnointegrated.co.uk> or reach out to us through one of the contact methods specified on the back cover of this catalog.

You can find the code for our Kitchen, Bathroom, and Wardrobe models on the relevant model pages.

Don't forget to specify the model you wish to order to our customer representative.

If you are ordering Kitchen, Bathroom, or Wardrobe models in a special size, please make sure to inform our customer representatives of your requirements.

To understand which surface types can be applied to your selected model, please review the color options chart.

Crown moldings, plinths, baseboards, rosettes, hoods, and columns are complementary elements in our projects. Additionally, you may contact our customer representatives for your requests regarding 45-degree products.

For lacquer color selections, you can refer to the RAL chart; for foil selections, please use the Legno color chart. If you do not have the color chart, feel free to contact us or review it by visiting <http://www.legnointegrated.co.uk>.

(Note: Color choices made from a catalog or digital source may not accurately represent the actual colors.)
